**NW Energy Coalition**  
 for a clean and affordable energy future

June 12, 2012

Kathleen Vaughn, President  
 Toni Olson, Vice President  
 David Aldrich, Secretary  
 Snohomish County Public Utility District  
 PO Box 1107  
 Everett, WA 98206-1107

Dear Commissioners Vaughn, Olson and Aldrich,

On behalf of the NW Energy Coalition, I would like to congratulate you, Steve Klein, Jim West, Mary Smith and the entire utility staff for your well-deserved Excellence in Energy Efficiency Award from the Bonneville Power Administration.

BPA selected Snohomish County PUD for the award this year for many reasons, but several stood out for us:

- The remarkable number of customers you've reached with your programs resulting in more than 700,000 CFLs and 19,000 e-kits being distributed and 14,000 efficient appliances being installed.
- Your success in leveraging community, local government and ARRA resources to promote efficiency in hard to reach populations.
- The utility's willingness to go beyond tried and true approaches to energy efficiency such as bringing behavior based efficiency programs to the region and working with BPA to pilot the use of heat pump water heaters, resulting in a new incentive program to advance the highly efficient technology.

We applaud and appreciate your regional leadership in energy efficiency and a low carbon future!

Sincerely,

Sara Patton  
 Executive Director

cc: Steve Klein, General Manager
