About NW Energy Coalition
Established in 1981, the Coalition is an alliance of over 100 environmental, civic, and human service organizations, progressive utilities and businesses in Oregon, Washington, Idaho, Montana and British Columbia. Our mission is to advance clean, equitable, and affordable energy policies by leveraging our analytic expertise and convening a broad alliance of people and organizations. We promote the development of renewable energy, energy efficiency, consumer protection, equitable and affordable clean energy services for all consumers, and fish and wildlife restoration on the Columbia and Snake rivers. The Coalition is committed to advancing Justice, Equity, Diversity, and Inclusion (JEDI) and we are committed to addressing the harm that Black, Brown, and Indigenous (BBI) communities have endured due to the energy system, policies, and practices in the Northwest. We are mindful of the intersectional nature of race, economic well being, and geography (urban/rural), and recognize that our commitment to racial justice will help advance energy justice more broadly.
